PROJECTS

MyBlog

- Developed a full-stack blog web-app with user authentication using Node.js, Express.js, MongoDB, React.js, Redux Toolkit, React-Router.
- Implemented user registration, login, logout functionalities.
- Ensured a mobile-friendly design for a seamless experience across devices.
- Amazing text-editor to enable users to create and update their blogs
- Live : <https://myblog-client.onrender.com/>
- Github : [Client](#) , [Server](#)
- Open Source Blog Api : [Github](#) , [Live](#)

SHOPWAVE

- Developed a full-stack ecommerce web-app with payment integration using React, Redux Toolkit, Strapi, Stripe, PostgreSQL, axios, SASS, React-Router.
- Integrated Strapi CMS and a complex PostgreSQL schema for robust backend management and implemented secure Stripe payment processing, ensuring a seamless and confident ecommerce experience.
- Enhanced user engagement and satisfaction by incorporating a user-friendly product slider, streamlined "Add to Cart" functionality, and a simplified checkout process, optimizing the overall shopping experience for customers.
- Live : <https://shopwave-ecommerce.onrender.com/>
- Github : [Client](#) , [Sever](#)

Netflix

- Developed a Netflix clone with user authentication and amazing video player using React, Redux Toolkit, React-Router, React-icons, Styled Components, Firebase and the movieDB Api for fetching movie data.
- Implemented Firebase Authentication for secure user login, signup, and signout.
- Utilized React, Redux Toolkit, and Styled Components to create a UI design and react-router for routing.
- Employed Axios and Redux Thunk for efficient data management and asynchronous operations.
- Live : <https://netflix-firebase.onrender.com/>
- Github : [Github-Link](#)

SocialMedia Api

- Developed and open-sourced a robust Social Media API using Node.js, Express.js, and MongoDB.
 - Users can register, login, create posts, and interact with personalized feeds. Integrated features include friend management, post liking, and robust security measures. Welcoming contributions.

SKILLS

Technologies:

Frontend:

- React.js, Redux,
Redux Toolkit, Context Api,
- Axios, SEO, Material-UI,
SASS, Bootstrap

Backend :

- Node.js, Express.js ,
Strapi,
- Firebase, MongoDB,
PostgreSQL, REST Api

Tools:

- VS Code, npm, yarn,
Git, Github, DigitalOcean,
- CI/CD , Render ,
Cyclic, Netlify

Programming Languages:

HTML5, Javascript,
Python

HOBBIES

Cricket, Coding, Reading,
Travel

LANGUAGES

English, Hindi
